Chapter 1  Overview

§ 1:1  Introduction ................................................................. 1-1
§ 1:2  The *Markman* Decisions ............................................ 1-3
§ 1:3  Summary of Post-*Markman* Law ................................ 1-5
  § 1:3.1  Certainty Versus Uncertainty ................................. 1-5
  § 1:3.2  Indefiniteness ....................................................... 1-7
  § 1:3.3  Timing ................................................................. 1-8
  § 1:3.4  Types of Presentations .......................................... 1-9
  § 1:3.5  Use of Extrinsic Evidence ..................................... 1-9
  § 1:3.6  Finality of Claim Construction .............................. 1-10
  § 1:3.7  Consideration of Alleged Infringements .................. 1-11
  § 1:3.8  Appeals .............................................................. 1-12
  § 1:3.9  Local Court Claim Construction Rules .................... 1-13
§ 1:4  The Courts and the Patent and Trademark Office ......... 1-13

Chapter 2  Selecting Claims and Claim Elements for Construction

§ 2:1  General Considerations ................................................. 2-3
§ 2:2  Intrinsic Evidence .......................................................... 2-6
  § 2:2.1  The Patent ............................................................... 2-8
    [A]  All Elements Rule ...................................................... 2-8
    [A][1]  The Doctrine of Equivalents ................................ 2-8
    [A][3]  The Preamble As a Limitation .............................. 2-13
    [A][4]  Joint Infringement .............................................. 2-14
    [B]  Construction Is Based on Entirety of the Specification .......... 2-16
    [B][1]  Claim Terms Are Usually Given Their Ordinary and Customary Meanings ...... 2-16
    [B][1][a]  Terms of Art in Patent Law .............................. 2-19
“Comprising,” “Including,” “Consisting of,” and “Consisting Essentially of” .......................... 2-19

“Whereby” Clauses ........................................................................... 2-20

Construction Should Not Normally Read Limitations into Claims .................................. 2-21

Construction Should Not Usually Be Limited to Specific Disclosed Embodiments ............... 2-25

Claims Should Normally Be Construed to Include the Preferred Embodiments........ 2-26

Term Should Normally Be Construed the Same Throughout a Single Claim ............ 2-26

Courts Will Not Re-Draft Claims to Avoid Invalidity ........................................ 2-27

Title Is Usually Irrelevant ....................................................................... 2-27

Definitions .......................................................................................... 2-28

Effect of Other Claims .......................................................................... 2-29

Dependent Claims ................................................................................. 2-30

Other Independent Claims ..................................................................... 2-32

Specialized Types of Claims ................................................................. 2-33

Means-Plus-Function Claim .................................................................. 2-33

Computer and Business Method Claims ................................................ 2-36

Jepson-Type Claims .............................................................................. 2-38

Markush Claims ................................................................................... 2-38

Product-by-Process Claims .................................................................... 2-38

Pharmaceutical and Chemical Claims ...................................................... 2-39

Suspect Doctrines .................................................................................. 2-40

Claim Differentiation .............................................................................. 2-40

Construction Should Preserve Validity ................................................ 2-41

§ 2:2.2 File History .................................................................................... 2-42

[A] Use for Interpretation ......................................................................... 2-42

[B] Estoppeles and Disclaimers ................................................................. 2-44

[C] Patent and Trademark Office Uses a Different Standard of the Broadest Reasonable Interpretation ............................................................................. 2-45

§ 2:2.3 Cited Prior Art .................................................................................. 2-48

[A] Information Disclosure Statements .................................................... 2-49

[B] Incorporation by Reference in the Specification ........................................ 2-50

§ 2:2.4 Related Patents and Applications .................................................... 2-52

[A] U.S. Applications and Patents ............................................................... 2-52

[B] Foreign Applications and Patents ......................................................... 2-53

§ 2:3 Extrinsic Evidence .............................................................................. 2-54

§ 2:4 Related Doctrines .............................................................................. 2-56
Table of Contents

§ 2:4.1 Section 112 ........................................................ 2-56
[A] Indefiniteness ........................................................ 2-58
[A][1] Supreme Court Case Law .................................... 2-58
[A][2][a] Relatively Clear-Cut Indefiniteness ............. 2-63
[A][2][b] Terms of Approximation and
Terms of Degree ..................................................... 2-65
[A][2][c] Multiple Plausible Meanings and Facially
Nonsensical Claim Language.......................... 2-67
[A][2][d] Multiple Standards for Measurement of
an Essential Claim Limitation ........................ 2-68
[A][2][e] Means-Plus-Function Claims ...................... 2-70
[B] Enablement .......................................................... 2-72
[C] Written Description ......................................... 2-74
[D] Best Mode .......................................................... 2-75
[E] Inequitable Conduct ........................................... 2-76

§ 2:4.2 Section 101: Patent-Eligible Subject Matter ........ 2-77
[A] Biotechnology ................................................... 2-82
[B] Software and Computers ................................. 2-85
[C] Business Methods ........................................... 2-90

§ 2:5 Design Patents ..................................................... 2-92
§ 2:6 Plant Patents ..................................................... 2-96
§ 2:7 Litigation Considerations, Sanctions, and Penalties... 2-97
§ 2:7.1 Alternative Positions and Possible Preclusion ..... 2-97
§ 2:7.2 Deviations from Common Litigation Procedures
for Claim Construction ......................................... 2-98
§ 2:7.3 Pre-Trial Sanctions and Procedures .................. 2-100
§ 2:7.4 Post-Trial Sanctions and Procedures ............... 2-100
§ 2:7.5 Contempt ......................................................... 2-103

Chapter 3 Prior Claim Construction

§ 3:1 Introduction ................................................................ 3-1
§ 3:2 Law of the Case .......................................................... 3-4
§ 3:3 Stare Decisis ............................................................. 3-6
§ 3:4 Estoppel ................................................................... 3-11
 § 3:4.1 Collateral Estoppel [Issue Preclusion] .............. 3-11
 § 3:4.2 Judicial Estoppel .................................................. 3-17
§ 3:5 Claim Preclusion [Res Judicata] .............................. 3-18
§ 3:6 Kessler Doctrine ..................................................... 3-20
§ 3:7 Persuasive Effect ..................................................... 3-21
§ 3:8 Summary ................................................................. 3-21

(Patent Claim, Rel. #2, 7/15) XV
Chapter 4  Timing for Construction

§ 4:1  General Considerations ............................................ 4-1
§ 4:2  Construction Before or Early in Discovery ............... 4-2
  § 4:2.1  Stay of Discovery .............................................. 4-6
§ 4:3  Construction Before Close of Discovery ................. 4-6
§ 4:4  Construction After Discovery ................................. 4-7
§ 4:5  Construction in Jury Instructions ............................. 4-9

Chapter 5  Local Court Claim Construction Rules

§ 5:1  Overview .................................................................. 5-17
§ 5:2  Northern District of California Patent Local Rules..... 5-19
  § 5:2.1  Joint Claim Construction and Prehearing
           Statement (Rule 4-3) ........................................... 5-19
  § 5:2.2  Preliminaries to the Joint Claim Construction
           and Prehearing Statement .................................... 5-20
         [A] Initial Case Management Conference
             (Rule 2-1) ..................................................... 5-20
         [B] Disclosure of Asserted Claims and
             Infringement Contentions (Rule 3-1) .......... 5-20
         [C] Invalidity Contentions (Rule 3-3) ................. 5-21
         [D] Document Production Accompanying
             Infringement and Invalidity Contentions
             (Rules 3-2 and 3-4) ........................................ 5-21
         [E] Exchange of Proposed Terms for Construction
             (Rule 4-1) ..................................................... 5-21
         [F] Exchange of Preliminary Claim Construction
             and Extrinsic Evidence (Rule 4-2) .......... 5-22
  § 5:2.3  Claim Construction Discovery (Rule 4-4) .......... 5-22
  § 5:2.4  Claim Construction Briefs (Rule 4-5) ................. 5-22
  § 5:2.5  Claim Construction Hearing (Rule 4-6) ............. 5-23
§ 5:3  Southern District of California Patent Local Rules ..... 5-23
  § 5:3.1  Joint Claim Construction Chart, Worksheet
           and Hearing Statement (Rule 4.2) ................. 5-24
  § 5:3.2  Preliminaries to the Joint Claim Construction
           Chart, Worksheet and Hearing Statement .......... 5-25
         [A] Early Neutral Evaluation Conference
             and Initial Case Management Conference
             (Rule 2.1) ..................................................... 5-25
         [B] Disclosure of Asserted Claims and Preliminary
             Infringement and Invalidity Contentions
             (Rules 3.1 and 3.3) ........................................ 5-25
Table of Contents

[B][1] Disclosure of Asserted Claims and Infringement Contentions
   [Rules 3.1 and 3.6] ......................................... 5-25
[B][3] Document Production Accompanying Infringement and Invalidity Contentions
   [Rules 3.2 and 3.4] ......................................... 5-26
[B][5] Exchange of Extrinsic Evidence in Support of Claim Construction
   [Rule 4.1.b and d] ........................................... 5-27
§ 5:3.3 Claim Construction Discovery [Rule 4.3] .............................. 5-28
