Chapter 1 U.S. Communications Law and Policy .............................................. 1

Laura H. Phillips

Q 1.1 Which types of industries/practices does U.S. communications law affect/regulated? ......................................................... 2
Q 1.2 Which types of industries/practices does U.S. communications law not affect/regulated? ......................................................... 3
Q 1.3 What are the principal laws that affect communications in the United States? ................................................................. 3
Q 1.3.1 What is the Communications Act of 1934? .............................................. 3
Q 1.3.2 What is the Telecommunications Act of 1996? ................................. 4
Q 1.4 What other laws affect U.S. communications law and policy? .......... 5
Q 1.4.1 What is the effect on U.S. communications of election laws? .............. 5
Q 1.4.2 ... copyright laws? .................................................................................. 6
Q 1.4.3 ... environmental laws? ........................................................................... 6
Q 1.4.4 ... advertising laws? ................................................................................ 6
Q 1.4.5 ... the Anti-Drug Abuse Act of 1998? ...................................................... 7
Q 1.4.6 ... public safety laws? .............................................................................. 7
Q 1.4.7 ... privacy laws? ....................................................................................... 7
Q 1.4.8 ... Omnibus Budget Reconciliation Act of 1993? ............................... 8
Q 1.5 Why is the Administrative Procedure Act important to U.S. communications law? ................................................................. 8
Q 1.5.1 Which other laws have an important effect on administrative agencies such as the FCC? ................................................................. 9
Q 1.6 Do any foreign or international sources of regulation play a role in U.S. telecommunications? .................................................... 9
Q 1.7 Which important policies guide and influence U.S. communications law? ........................................................................... 10
Q 1.7.1 What is the importance of competition? .............................................. 10
Q 1.7.2 How does the FCC encourage competition? ......................10
Q 1.7.3 What is the importance of public access to various
communications platforms? ...........................................10
Q 1.7.4 How does the FCC increase public access to
communications platforms? ...........................................11
Q 1.7.5 What is the importance of spectrum efficiency? ..........12

Chapter 2 Regulatory Jurisdiction and Enforcement ...............17
Laura H. Phillips
Q 2.1 To what kinds of regulation are communications companies
generally subject? .....................................................18
Q 2.2 What are the different federal agencies that may regulate
businesses operating in the communications sector? .............19
Q 2.3 What does the FCC do? ........................................19
Q 2.4 How is the FCC organized? ....................................20
Q 2.4.1 What are the responsibilities of the Media Bureau? ......21
Q 2.4.2 ... the Wireless Bureau? ..................................21
Q 2.4.3 ... the Wireline Competition Bureau? ..................21
Q 2.4.4 ... the Public Safety and Homeland Security Bureau? ..21
Q 2.4.5 ... the International Bureau? .............................21
Q 2.4.6 ... the Enforcement Bureau? .............................21
Q 2.4.7 ... the Consumer and Governmental Affairs Bureau? ..22
Q 2.5 How does the FCC establish rules and regulations? .......22
Q 2.6 What does the National Telecommunications and
Information Administration do? ....................................23
Q 2.7 What does the Federal Trade Commission do? ..............24
Q 2.7.1 What is the “common carrier exception”? ................24
Q 2.8 What is the role of the Department of Justice in regulating
the communications industry? ......................................24
Q 2.9 Do states and local governments have regulatory authority
over participants in the communications industry? ...............25
Q 2.10 Who regulates landline telephone service, and what is the
extent of regulation? ................................................25
Q 2.11 Who regulates wireless telephone service, and what is the
extent of regulation? ................................................26
Q 2.12 Who regulates VoIP service, and what is the extent
of regulation? .........................................................27
Q 2.13 Who regulates broadcasters, and what is the extent
of regulation? .........................................................27
Q 2.14 Who regulates cable service providers, and what is the
extent of regulation? ................................................28
Q 2.15  Who regulates satellite service, and what is the extent of regulation? ................................................................. 29
Q 2.16  What is broadband? ................................................................................................................................. 30
Q 2.17  How does the FCC regulate broadband? ........................................................................................................ 30
Q 2.17.1  What are the 2015 Open Internet Rules? ................................................................................................. 31
Q 2.18  What happens if an entity in the FCC’s jurisdiction does not comply with applicable FCC regulations or orders? ..................................................................................................................... 31
Q 2.19  How does the FCC conduct enforcement actions/investigations? ................................................................. 32
Q 2.20  What sanctions may the FCC impose? ........................................................................................................... 33
Q 2.21  Can the subject of an investigation/enforcement action settle with the FCC? ......................................................... 34

Chapter 3  Lobbying, Ex Parte Communications, Political Contributions, and Gifts ...................................................... 37

Cindy P. Irani

Q 3.1  What federal laws regulate lobbying in the United States? ................. 39
Q 3.1.1  How is the Lobbying Disclosure Act enforced? ......................................................... 39
Q 3.2  Who is a “lobbyist” under the Lobbying Disclosure Act? ......................... 40
Q 3.2.1  To whom does the Internal Revenue Code’s definition of “lobbying” apply? ......................................................................................... 40
Q 3.2.2  What is a “lobbying contact” under the LDA, and how does it differ from “lobbying activity”? .................................................................... 41
Q 3.2.3  What constitutes “more than one lobbying contact”? ......................... 42
Q 3.2.4  How is the 20% threshold calculated? .................................................................... 43
Q 3.2.5  What are examples of lobbying contacts and lobbying activities? ................................................................................. 43
Q 3.2.6  What is a “lobbying firm” under the LDA? ......................................................... 44
Q 3.2.7  Who is a “client” under the LDA? ........................................................................ 44
Q 3.2.8  Who is a “covered government official” under the LDA? ........................................... 45
Q 3.3  What are the registration requirements under the LDA? ................... 46
Q 3.3.1  Who must register and by when? ........................................................................ 47
Q 3.3.2  How does one register as a lobbyist? ........................................................................ 49
Q 3.3.3  What information must be disclosed on a registration form? ................................................................................. 49
Q 3.3.4  How does one terminate lobbyist registration? ......................................................... 49
Q 3.4  What are the reporting requirements under the LDA? .................... 50
Q 3.4.1  When are quarterly lobbying activity reports due? ......................................................... 50
Q 3.4.2  What information must be disclosed in a quarterly report? ................................................................................. 50
Q 3.4.3  Who must submit semiannual reports? ........................................................................ 51
| Q 3.4.4 | What information must be disclosed on a semiannual report? ..........................................................51 |
| Q 3.5  | What are the record-keeping requirements under the LDA? ...............53 |
| Q 3.6  | What are some of the restrictions on gifts that lobbyists may give? ..................................................................53 |
| Q 3.7  | Can a lobbyist be paid on a contingency-fee basis? .........................54 |
| Q 3.8  | Can a lobbyist serve on a federal board or commission? ..................54 |
| Q 3.9  | What is the Byrd Amendment? ..........................................................54 |
| Q 3.10 | What are the penalties for violating the LDA? .................................55 |
| Q 3.11 | How is lobbying regulated on the state and local levels? ....................55 |
| Q 3.12 | What are ex parte presentations? .......................................................55 |
| Q 3.13 | How are ex parte presentations regulated? ........................................56 |
| Q 3.14 | What types of proceedings are governed by the FCC’s ex parte rules? ................................................................56 |
| Q 3.15 | What is an “exempt” proceeding? .......................................................56 |
| Q 3.16 | What is a “permit-but-disclose” proceeding? ........................................57 |
| Q 3.16.1 | What are the disclosure requirements in “permit-but-disclose” proceedings? ....................................................58 |
| Q 3.17 | What are “restricted” proceedings? .....................................................59 |
| Q 3.18 | What filing requirements apply to the ex parte notifications? ............59 |
| Q 3.19 | What is the “Sunshine Agenda” period prohibition? ............................60 |
| Q 3.20 | What ex parte presentations are exempt from the prohibitions and disclosure requirements in the ex parte rules? ..........61 |
| Q 3.21 | What are the sanctions for parties who violate the ex parte rules? ..........................................................63 |
| Q 3.22 | What are the principal sources of federal regulation of campaign finance? ................................................................64 |
| Q 3.23 | What restrictions are placed on the participation of corporations and labor organizations in the federal election process? ..........................................................64 |
| Q 3.23.1 | What registration and reporting requirements are imposed on a “separate segregated fund”? .................................65 |
| Q 3.24 | What is a non-connected PAC? ...........................................................66 |
| Q 3.25 | What is a “contribution”? .................................................................66 |
| Q 3.25.1 | What is not considered a contribution? ..............................................66 |
| Q 3.25.2 | What are the federal contribution limits? ...........................................67 |
| Q 3.26 | What are prohibited contributions? .....................................................67 |
| Q 3.27 | What is an “expenditure”? .................................................................67 |
| Q 3.27.1 | What is not considered an expenditure? ..........................................69 |
| Q 3.27.2 | What is an independent expenditure? .................................................70 |
| Q 3.28 | How are state and local elections governed? ......................................70 |
Q 3.29 What gift rules should persons and businesses in the telecommunications industry be aware of? ........................................ 71
Q 3.30 What are the gift rules applicable to legislative-branch employees? ................................................................. 71
  Q 3.30.1 Who is subject to the House and Senate gift rules? .......... 72
  Q 3.30.2 What is a “gift”? .......................................................... 72
  Q 3.30.3 What is not considered a “gift”? ............................... 72
  Q 3.30.4 What restrictions apply to gifts from federally registered lobbyists given to congressional members and employees? ................................................................. 72
Q 3.31 What are the current gift rules applicable to executive-branch employees? .................................................. 74
  Q 3.31.1 Who is subject to the gift rules? .................................... 76
  Q 3.31.2 What is a “gift”? .......................................................... 76
  Q 3.31.3 What is not considered a “gift”? ............................... 77
Q 3.32 What additional restrictions are federal government contractors subject to? .................................................. 78
Q 3.33 What is the law governing bribery of federal employees? ................................................................. 79

Chapter 4 Duties of Telecommunications Carriers ........................................ 87

Eduardo R. Guzmán

Q 4.1 What is a “telecommunications carrier”? ............................ 90
Q 4.2 What is the difference between “telecommunications services” and “information services”? ............................. 90
  Q 4.2.1 Why is the distinction between “telecommunications services” and “information services” significant? .......... 91
Q 4.3 What is a “common carrier”? ............................................. 92
  Q 4.3.1 Why is the “common carrier” designation significant? .... 92
  Q 4.3.2 What is the interplay between the terms “telecommunications carriers” and “common carriers”? .......... 93
  Q 4.3.3 Are Internet protocol–based voice services (such as Voice over Internet Protocol) and the providers of these services considered telecommunications services or information services? ................................. 94
Q 4.4 What obligations apply to all telecommunications carriers? .... 94
Q 4.5 What does it mean to “interconnect”? ................................. 95
  Q 4.5.1 What is the difference between direct and indirect interconnection? ................................................................. 95
  Q 4.5.2 Are telecommunications carriers that provide information services eligible for interconnection under section 251(a)(1)? ................................................................. 96
Q 4.5.3  Are wholesale partners of interconnected VoIP service providers telecommunications carriers for purposes of section 251(a)? .................................................................96

Q 4.6  What is the basic obligation regarding accessibility to telecommunications services by individuals with disabilities? ....96

Q 4.6.1  What services are covered by the disabilities-access requirements of section 255? .................................................................97

Q 4.6.2  How is accessibility measured for purposes of this obligation under section 255? .................................................................97

Q 4.6.3  How is compatibility measured for purposes of this obligation under section 255? .................................................................97

Q 4.6.4  When is an action “readily achievable” for purposes of section 255? .................................................................97

Q 4.6.5  How are the disabilities-access requirements applied in the context of interconnected VoIP services? .........................98

Q 4.7  What obligations apply specifically to telecommunications carriers engaged in interstate and foreign communications? ......98

Q 4.7.1  Who determines if a charge, classification, regulation, or practice complies with the requirements of sections 201 and 202? ........................................................................99

Q 4.7.2  What makes a rate “just and reasonable”? .........................99

Q 4.7.3  How does the FCC determine what is an “unjust or unreasonable discrimination” in violation of section 202(a)?.................................101

Q 4.8  Are there any restrictions on a telecommunications carrier’s providing and/or discontinuing interstate or international telecommunications services? .................................................................101

Q 4.8.1  Are any telecommunications services excluded from the discontinuation requirement? .................................................................102

Q 4.9  What are a common carrier’s obligations with respect to filing a schedule of charges? .................................................................103

Q 4.9.1  What is the origin of the requirement to file schedules of charges? ........................................................................103

Q 4.9.2  Is the filed-rate doctrine still in effect? .................................104

Q 4.10  What interconnection obligations specifically apply to local exchange carriers? .................................................................104

Q 4.11  What is encompassed by the resale obligations under section 251(b)(1)? .................................................................105

Q 4.12  What is number portability? .................................................................105

Q 4.12.1  What is required of local exchange carriers as to number portability? ........................................................................105

Q 4.13  What is dialing parity? .................................................................106
Q 4.13.1 What is required of local exchange carriers as to dialing parity? ................................................................. 106
Q 4.14 What is encompassed by the duty to afford access to right-of-way? .............................................................. 106
Q 4.14.1 What was the general intent behind the changes to the duty to afford access to poles, ducts, conduits, and rights-of-way enacted by the 1996 Act? .......................... 107
Q 4.14.2 What is the difference between section 251(b)(4) and section 224, as amended? ........................................ 107
Q 4.14.3 How do the FCC’s rules and policies implement and balance the directives of section 224 with the narrower duty imposed under section 251(b)(4)? ............ 108
Q 4.14.4 Did the FCC preempt state and local regulations regarding access to rights-of-way? ............................................ 109
Q 4.15 What is reciprocal compensation and what is required of LECs? ................................................................. 109
Q 4.15.1 What are an LEC’s reciprocal compensation obligations? .... 109
Q 4.15.2 What rates apply to reciprocal compensation, and how are they calculated? .................................................... 109
Q 4.15.3 Does a so-called bill-and-keep arrangement suffice to comply with section 251(b)(5)? ........................................ 110
Q 4.15.4 Does section 251(b)(5) apply to all categories of traffic? .... 110
Q 4.15.5 What was the justification for treating access traffic differently? ................................................................. 111
Q 4.15.6 How did the Connect America Fund Order change the requirements under section 251(b)(5)? ......................... 111
Q 4.15.7 How is VoIP traffic treated under section 251(b)(5)? ...... 111
Q 4.16 What obligations apply specifically to incumbent local exchange carriers? ......................................................... 113
Q 4.17 How is good faith measured or defined for purposes of section 251(c)(1)? ............................................................... 114
Q 4.17.1 Does the requirement to negotiate in good faith apply exclusively to the ILEC? .................................................. 114
Q 4.17.2 Are there specific examples of conduct or actions that constitute a per se violation of the duty to negotiate in good faith? .......................................................... 114
Q 4.17.3 What remedies are available if a carrier does not negotiate in good faith? .................................................. 114
Q 4.17.4 How does a requesting carrier commence negotiations with an ILEC? ........................................................... 116
Q 4.18 What are the basic components of the duty to interconnect under section 251(c)(2)? ......................................................... 116
Q 4.18.1 What does the term “interconnection” refer to in the context of section 251(c)(2)? ...................................................116
Q 4.18.2 If interconnection under section 251(c)(2) refers to the physical linking of networks, how is it different from the similar requirement under section 251(a)(1)? ...............117
Q 4.18.3 Can a carrier request interconnection from an ILEC under section 251(c)(2) to exchange interexchange traffic (or toll traffic)? .......................................................................117
Q 4.18.4 What is a “technically feasible” point for purposes of section 251(c)(2)? ........................................................................117
Q 4.18.5 What factors can be considered to determine if a request for interconnection is technically feasible? .................117
Q 4.18.6 Has the FCC identified any per se technically feasible points of interconnection? ..................................................118
Q 4.18.7 If a dispute arises as to the existence of a technically feasible point of interconnection, who has the burden of proof? ..................................................................................118
Q 4.18.8 What can the ILEC charge the requesting carrier for interconnection under section 251(c)(2)? ................................................118
Q 4.19 What is an “unbundled network element” and what is required of ILECs? ..........................................................119
Q 4.19.1 Who determines which network elements have to be offered on an unbundled basis under section 251(c)(3)? ....119
Q 4.19.2 How does the FCC determine which specific network elements must be offered on an unbundled basis? ..........119
Q 4.19.3 Are there any limitations to the use that can be given by a requesting carrier to an unbundled network element? ..................................................................................119
Q 4.19.4 How does the FCC determine whether a particular network element is subject to the unbundling requirement? ..................................................................................120
Q 4.19.5 Which specific network elements are subject to unbundling under the FCC’s rules? ..................................................120
Q 4.20 What pricing standard applies to the ILEC’s offering of interconnection and unbundled network elements under section 251(c)? .................................................................120
Q 4.21 What is the scope of the duty to allow for the resale of telecommunications services under section 251(c)(4), and how is it different from the duty that applies to all local exchange carriers under section 251(b)(1)? .................121
Q 4.21.1 How are wholesale rates determined for purposes of section 251(c)(4)? ..............................................................122
Table of Contents

Q 4.22  What is collocation?..................................................................................................................122
  Q 4.22.1  What are an ILEC’s collocation obligations?..........................................................122
  Q 4.22.2  When is equipment necessary for interconnection or access to unbundled network elements?..........................................................122
  Q 4.22.3  How does this requirement affect an ILEC’s ability to use and manage space in its premises?.................................123
  Q 4.22.4  Can a requesting carrier collocated in a particular ILEC premises interconnect its network and its equipment with the network and equipment of a third-party carrier collocated in the same premises?..................123
  Q 4.22.5  Can ILECs impose any restrictions on a requesting carrier’s physical access to its collocated equipment? .....123

Q 4.23  How does the process for negotiation of an interconnection agreement start?.................................124
  Q 4.23.1  What happens if the parties cannot reach agreement on the rates, terms, and conditions of an interconnection agreement?..........................................................124
  Q 4.23.2  Can a state commission choose not to act in response to a request for arbitration?.................................124
  Q 4.23.3  What standards are state commissions supposed to apply in resolving open issues in an arbitration?...........125
  Q 4.23.4  Is arbitration under section 252 akin to commercial arbitration?.................................125
  Q 4.23.5  What procedures are available for judicial review of state commission determinations?.................................125
  Q 4.23.6  Do federal courts have exclusive jurisdiction over these requests for judicial review? .........................125
  Q 4.23.7  What standard of review applies to the determinations of the state commission?.................................126
  Q 4.23.8  Does section 252(e)(6) confer on federal courts subject matter jurisdiction over actions requesting judicial review of a state commission’s interpretation of an interconnection agreement?.................................126

Q 4.24  What additional obligations are imposed on Bell Operating Companies?..........................................................127

Q 4.25  What parts of the common carrier regulatory framework under the 1934 Act apply to providers of commercial mobile radio service?..........................................................128

Q 4.26  What is roaming? ..................................................................................................................129
  Q 4.26.1  What are CMRS carriers’ obligations with respect to roaming?..................................................129
  Q 4.26.2  What are CMRS carriers’ obligations with respect to data roaming? ..................................................129
Q 4.27 What kinds of protections exist for maintaining the privacy of proprietary information? .............................................................. 130
Q 4.27.1 What constitutes CPNI? ................................................................. 132
Q 4.27.2 What do the FCC’s rules require concerning the protection of CPNI? .............................................................. 132
Q 4.28 What are some of the social obligations imposed on telecommunications carriers? .............................................................. 133
Q 4.29 What is E9-1-1? .................................................................................... 133
Q 4.29.1 Are wireline carriers subject to E9-1-1 requirements?............. 133
Q 4.29.2 What other E9-1-1 requirements apply to wireless carriers? .................................................................................. 134
Q 4.29.3 What kinds of issues/concerns are raised by the transition in technology from wire-based to IP-based services? .................................................................................. 134
Q 4.30 What is Universal Service? .............................................................. 135
Q 4.30.1 What is the Lifeline program? .............................................................. 135
Q 4.30.2 What is the Schools and Libraries program? ................................. 136
Q 4.30.3 What is the Rural Health Care program? ....................................... 136
Q 4.30.4 What is the High Cost program? .................................................... 137
Q 4.31 Who contributes to the Universal Service Fund? ............................. 137
Q 4.32 What are telecommunications relay service and video relay service? .................................................................................. 138
Q 4.32.1 What are telecommunications carriers’ obligations with respect to relay services? .................................................................................. 138

Chapter 5 Antitrust .................................................................................... 151
Dick Edge, Mark F. Dever & Joanne Lewers

Q 5.1 What are the principal U.S. statutes governing antitrust law? ..... 152
Q 5.1.1 In what contexts, if any, do foreign antitrust laws apply to U.S. telecommunications entities? .............................................................. 153
Q 5.1.2 Are there significant efforts underway to amend the antitrust laws insofar as they apply to the telecommunications industry? .................................................................................. 153
Q 5.2 What federal agencies have jurisdiction to enforce antitrust laws? .................................................................................. 154
Q 5.2.1 Does the FCC have jurisdiction to enforce antitrust laws in the telecommunications industry? .............................................................. 154
Q 5.2.2 Who has jurisdiction in state antitrust investigations? ............... 154
Q 5.2.3 Can private lawsuits be brought for federal antitrust violations? .................................................................................. 154
Q 5.3 What conduct is addressed by the U.S. antitrust laws? .......... 155
Q 5.4 How do courts determine if a restraint of trade is unreasonable? ................................................................. 156
Q 5.4.1 What kinds of unreasonable restraints of trade might occur in the telecommunications industry? .......... 156
Q 5.5 How are claims of monopolization and other conduct that may be subject to Sherman Act section 2 analyzed? .... 157
Q 5.5.1 What are tying arrangements? .................................................. 158
Q 5.5.2 Have tying arrangements in the telecommunications industry been the subject of antitrust challenges? ...... 158
Q 5.6 How are mergers analyzed? .................................................. 158
Q 5.7 How are relevant markets defined in the telecom industry? 159
Q 5.8 Does the 1996 Act (or other legislation) confer antitrust immunity on members of the telecommunications and/or mass media industries? .......................................................... 160
Q 5.8.1 What is Noerr-Pennington antitrust immunity? ............ 161
Q 5.8.2 How has the Noerr-Pennington doctrine been applied in the telecommunications and mass media industries? .... 161
Q 5.9 What is the interplay of the Telecommunications Act of 1996 and antitrust laws? .............................................. 162
Q 5.9.1 How was the 1982 AT&T antitrust settlement affected by the 1996 Act? .......................................................... 163
Q 5.10 What is the antitrust “essential-facilities doctrine”? .... 164
Q 5.10.1 What is the interplay between section 251 of the Communications Act and the essential-facilities doctrine? .................................................................................. 164
Q 5.10.2 Could a violation of section 271 of the 1996 Act support an antitrust claim? .................................................. 165
Q 5.10.3 How does the Trinko theory apply to various areas of FCC regulation? .......................................................... 165
Q 5.11 What is the filed-rate doctrine? ........................................ 166
Q 5.11.1 How does the filed-rate doctrine apply in the telecommunications context? .................................................. 167
Q 5.12 Which agencies have jurisdiction over telecom mergers? 167
Q 5.12.1 How do state antitrust investigations of telecommunications mergers differ from federal investigations? .................................................................................. 169
Q 5.12.2 What are some of the common product and geographic market issues that arise during agency reviews of telecom mergers? .................................................................................. 169
Q 5.12.3 How do the antitrust laws treat “potential competition” in telecom mergers? .................................................. 170
Q 5.13 May private antitrust actions be filed against telecommunications and mass media entities? ............................ 171
Chapter 6  Broadband Regulations and Policies .............................................179

Laura H. Phillips & Camillie Landrón

Q 6.1  What is broadband? .............................................................................181
Q 6.1.1 How is broadband different from narrowband? ..............................182
Q 6.1.2 What are the practical benefits of using broadband? .................182

Q 6.2  What are common platforms used to deliver Internet access? ....182
Q 6.2.1 What is DSL? ....................................................................................183
Q 6.2.2 What is cable modem service? ......................................................183
Q 6.2.3 What is fiber optic? .........................................................................184
Q 6.2.4 What is wireless broadband? .........................................................184
Q 6.2.5 What is the difference between mobile and fixed wireless broadband? ..........................184
Q 6.2.6 How does satellite delivery of Internet access compare to other platforms? .................185

Q 6.3  What is the difference between 3G and 4G? ....................................185
Q 6.3.1 Is there 5G service? .........................................................................186

Q 6.4  Are all broadband delivery platforms identically regulated by the FCC? ........................................................................................................186

Q 6.5  What is the “last mile,” and why is it important? ..............................187

Q 6.6  What is the broadband adoption rate in the United States? ............187

Q 6.7  Are Internet speeds in rural areas the same as those in urban areas? ........................................................................................................187

Q 6.8  How does the United States compare to other countries in its rate of broadband deployment and penetration? .........................189

Q 6.9  What initiatives exist to advance broadband deployment and adoption in rural areas? ........................................................................189
Q 6.9.1 What are the Rural Broadband Experiments? ...............................194
Q 6.9.2 What is the Healthcare Connect Fund? ........................................194

Q 6.10 What initiatives exist to advance broadband deployment and adoption not restricted to rural areas? .................................................195

Q 6.11 Is Internet access that is provided over telephone lines regulated as basic Title II telephone services? ......................................196

Q 6.12 What is the difference between “basic services” (“telecommunications services”) and “enhanced services” (“information services”)? ........................................................................197

Q 6.13 What regulatory treatment is applied to cable modem Internet service? ..............................................................................................198

Q 6.14 What regulatory treatment is applied to wireless broadband Internet service? ..................................................................................202

Q 6.15 To what kinds of mandates and other requirements regarding speed of broadband service are providers subject? ..........................203
Q 6.16 What is the U.S. policy framework for broadband Internet access?.................................203
Q 6.17 What is the National Broadband Plan?.................................................................204
Q 6.18 What is the National Broadband Map?.................................................................205
Q 6.19 What is the Connect America Fund?.................................................................206
  Q 6.19.1 What are the goals of the CAF?.................................................................207
  Q 6.19.2 What are the different phases of the CAF?.............................................207
  Q 6.19.3 Do carriers have to fulfill any obligations to be eligible for CAF support?.................................................................208
  Q 6.19.4 How does the Connect America Fund Order affect intercarrier compensation?.................................................................208
  Q 6.19.5 What is “bill-and-keep,” and why was this regime chosen?.........................209
Q 6.20 What is the IP transition, and how is the FCC addressing it?.............................210
  Q 6.20.1 What kinds of issues are raised by the IP transition?.................................211
Q 6.21 What is “net neutrality”?......................................................................................211
  Q 6.21.1 How did the issue of net neutrality come into being?.................................211
  Q 6.21.2 What was the outcome of Verizon’s appeal of the 2010 Open Internet Order?.........................................................................................213
  Q 6.21.3 What was the FCC’s response?...........................................................................213
Q 6.22 How does the FCC’s 2015 Open Internet Order propose to regulate “broadband Internet access services” (BIAS)?............................................214
  Q 6.22.1 How did the FCC create its new regulatory framework for broadband Internet access services?.................................................................215
Q 6.23 What is BIAS?........................................................................................................216
Q 6.24 How did the FCC reclassify BIAS as a telecommunications service?.......................216
  Q 6.24.1 Was there opposition to the reclassification of broadband services in the 2015 Open Internet Order?.........................................................................................218
Q 6.25 How is mobile broadband treated under the new regulatory framework?.................................................................218
Q 6.26 How is the service to the content of “edge” providers regulated?.................................................................219
Q 6.27 Can states and localities regulate broadband?.........................................................220
Q 6.28 Do all the requirements of Title II apply to BIAS?......................................................220
  Q 6.28.1 How were the forbearance decisions made?.....................................................220
  Q 6.28.2 Which Title II requirements do apply to BIAS?...............................................221
Q 6.29 Which Title II requirements do not apply to BIAS?.....................................................222
  Q 6.29.1 Are those entities that offered Internet transmission services prior to the reclassification of BIAS subject to Title II requirements?.........................................................................................224
Q 6.30 Did the FCC grant forbearance from provisions set forth in other titles of the Communications Act?.....................................................................................225
Q 6.31 What is the rationale for adopting the 2015 Open Internet Rules? .................................................................226
Q 6.32 What is the scope of the 2015 Open Internet Rules? .................227
   Q 6.32.1 Does the 2015 Open Internet Order regulate interconnection? ...............................................................227
   Q 6.32.2 What is a non-BIAS service? .................................................227
   Q 6.32.3 What are some examples of services that are not BIAS? 228
Q 6.33 What specific practices do the new FCC rules address? ...............228
Q 6.34 What is the prohibition on blocking? .....................................228
Q 6.35 What is the prohibition on throttling? ......................................229
Q 6.36 What is the prohibition on paid prioritization? ..........................230
Q 6.37 What is the new no-unreasonable interference/disadvantage standard? ............................................................230
   Q 6.37.1 Does the new standard of conduct address the practice of “sponsored data” (or “zero rating”)? ...............232
Q 6.38 What are the transparency requirements? ...............................232
   Q 6.38.1 Is a particular format mandated for the disclosures? ....233
   Q 6.38.2 What is reasonable network management? .................234
   Q 6.38.3 What is an example of a reasonable network management practice? ..........................................................234
Q 6.39 What is the framework for enforcement of the 2015 Open Internet Rules? .............................................................234
Q 6.40 What are the consequences of noncompliance? ........................235
Q 6.41 What was the industry’s immediate reaction to the 2015 Open Internet Order? ....................................................236
Q 6.42 What is the competition policy that applies to broadband networks and services? .................................................237
   Q 6.42.1 Is the FCC the only agency responsible for broadband competition policy? .........................................................237
Q 6.43 What other considerations play a role in achieving effective broadband deployment? .................................................238
   Q 6.43.1 What has the FCC done to address issues of facilities siting, easements, and rights of way? ...............................239

Chapter 7 Radio Spectrum Regulation and Licensing ....................259

Mark F. Dever

Q 7.1 What is “radio spectrum”? ......................................................260
Q 7.2 Why is radio spectrum use regulated? .....................................261
Q 7.3 How is spectrum regulated in the United States? .......................261
Q 7.4 Is a license required for all commercial and private spectrum usage? 262
| Q 7.5 | What types of commercial spectrum usage does the FCC permit? ..................................................263 |
| Q 7.6 | Are there terms and conditions that go along with a license for commercial spectrum usage? ..........266 |
| Q 7.6.1 | What are the typical terms and conditions for spectrum use? ..................................................266 |
| Q 7.6.2 | ... for bandwidth? .............................................267 |
| Q 7.6.3 | ... for geographic license area or site-based licenses? ..........267 |
| Q 7.6.4 | ... for license term? ........................................269 |
| Q 7.6.5 | ... for performance or network construction? ..........269 |
| Q 7.6.6 | ... for license renewal? ....................................270 |
| Q 7.6.7 | ... for technical parameters? ................................271 |
| Q 7.7 | What are the mechanisms for licensing commercial spectrum usage? ............................................273 |
| Q 7.7.1 | How does the FCC award spectrum licenses where more than one party applies for the same license? ........273 |
| Q 7.8 | Are there limits on the amount of commercial spectrum that may be licensed to one entity? ..........275 |
| Q 7.8.1 | Have FCC policies regarding mobile spectrum holdings changed? ..................................276 |
| Q 7.9 | May a license for commercial spectrum usage be sold? ..........277 |
| Q 7.9.1 | What is the process for approval of license assignments and transfers of control of licenses? ...........278 |
| Q 7.10 | May a license for commercial spectrum usage be sold in part? ...280 |
| Q 7.10.1 | What is the difference between partitioning and disaggregation? ........................................280 |
| Q 7.10.2 | In partial assignments of geographically licensed services, which party is responsible for meeting station construction requirements? ..............................281 |
| Q 7.11 | May a license for commercial spectrum usage be leased? ..........282 |
| Q 7.11.1 | What is a spectrum manager lease? .............................................282 |
| Q 7.11.2 | What is a short-term de facto transfer-of-control lease? ..........283 |
| Q 7.11.3 | What is a long-term de facto transfer-of-control lease? ..........283 |
| Q 7.12 | Can an FCC licensee lose its license? ..................................................................................284 |
| Q 7.12.1 | How can a license be lost by non-renewal? ..........284 |
| Q 7.12.2 | In what ways can a party lose its FCC license due to automatic termination? .................................284 |
| Q 7.12.3 | Under what circumstances can an FCC license be revoked? .................................................285 |
| Q 7.13 | What kinds of noncommercial spectrum usage does the FCC regulate? ......................................286 |
| Q 7.13.1 | How does the FCC administer public safety spectrum? ..........286 |
Chapter 8  Regulation of Mass Media

Lee G. Petro

Q 8.1 What are the various types of media facilities that are regulated by the FCC? .................................................................294
Q 8.1.1 What is HD radio? ........................................................................295
Q 8.1.2 What are translators and boosters? ........................................295
Q 8.2 What is the significance of “ownership” under the FCC’s rules? ...296
Q 8.3 Who is deemed to hold an “attributable interest” in a broadcast station or cable system? .................................................296
Q 8.3.1 Are there any exceptions to the attribution criteria? .............297
Q 8.3.2 How is a party “insulated” from a broadcast or cable company’s day-to-day operations? ..............................................298
Q 8.4 In how many radio stations can one party own or hold an attributable interest? ........................................................298
Q 8.4.1 How does the FCC define a radio “market” for purposes of applying the local radio ownership rule? ..........................299
Q 8.5 In how many TV stations can one party own or hold an attributable interest? ..............................................................300
Q 8.6 In how many cable systems can one party own or hold an attributable interest? ............................................................301
Q 8.7 Are there any cross-ownership restrictions? .........................301
Q 8.7.1 What is the restriction on common ownership of radio and TV stations in the same market? ..................................302
Q 8.7.2 What are the restrictions on common ownership of broadcast stations and daily newspapers in the same market? ..................................................................................303
Q 8.7.3 Are there any restrictions on common ownership of broadcast stations and cable systems or LECs in a local market? ..................................................................................303
Q 8.7.4 Are there any restrictions on common ownership of cable systems and LECs? .................................................................303
Q 8.8 Are there any restrictions on ownership of translators and boosters? ................................................................................304
Q 8.9 Are there any restrictions on foreign ownership? ..................304
Q 8.10 Can a party own a broadcast station indefinitely? ...............304
Q 8.11 Can one party own a cable system indefinitely? ....................305
Q 8.12 How are broadcast stations or cable systems acquired? .........305
Q 8.12.1 How can someone purchase a broadcast station? .............306
Q 8.12.2 How can a party purchase a cable system? .........................306
Q 8.13 Can an entity provide programming or other services to a broadcast station without owning it? .................................307
Q 8.14 What are the restrictions on passive lenders to broadcast or cable entities? .................................................................308
Q 8.15 From where can the broadcast station be operated?.....................308
  Q 8.15.1 What are the personnel and equipment requirements for the broadcast main studio? .............................................309
Q 8.16 Where must the cable system office be located? ............................309
Q 8.17 Does the FCC regulate the employees that broadcasters or cable systems may hire? .......................................................309
Q 8.18 Can a broadcast station move to wherever it wants? ....................310
Q 8.19 What kinds of facilities modifications are permissible to a broadcast station? .................................................................311
  Q 8.19.1 What are the deadlines for construction following FCC grant of a construction permit? ..................................................311
Q 8.20 What are the principal television carriage obligations imposed on cable operators and other MVPDs? ...........................312
Q 8.21 What channels are cable operators obliged to carry? ....................313
Q 8.22 Can a local cable system or satellite operator carry more than one network affiliate? .........................................................313
Q 8.23 What are the copyright restrictions imposed on MVPDs regarding the carriage of broadcast stations? ..............................314
Q 8.24 What are the requirements regarding public inspection files? ..............314
Q 8.25 What environmental certifications must be made when filing an application for a new radio or television station, or to make changes to an existing authorization? ..........................315
Q 8.26 Are the rates charged by cable operators to consumers regulated? ................................................................................316
Q 8.27 Can a station go off the air to save money? ....................................316
Q 8.28 How do certain commercial television stations protect their network programming by exercising nonduplication rights? ..........317
Q 8.29 Is there any protection for a station’s syndicated (non-network) programming? .................................................................318
Q 8.30 Can cable companies enter into exclusive programming contracts? ................................................................................318
Q 8.31 Is there any protection for sports programming? ............................318
Q 8.32 What are broadcasters’ obligations regarding participation in the Emergency Alert System? ................................................319
Q 8.33 What are the requirements imposed on television stations and cable systems regarding closed captioning and video description? ................................................................................319
Q 8.34 How are indecent and obscene programming regulated? ...............320

Table of Contents

Q 9.8.1 What are the risks associated with unofficial outbound communications? ................................................................. 345
Q 9.8.2 How can companies avoid risks associated with unofficial outbound communications? .................................. 345
Q 9.9 What are some examples of official inbound communications? .............................................................. 345
Q 9.9.1 What are the benefits of official inbound communications? ........................................................................ 346
Q 9.9.2 What are the risks associated with official inbound communications? ......................................................... 346
Q 9.9.3 How can broadcasters avoid risks associated with official inbound communications? .......................................... 346
Q 9.10 What are some examples of unofficial inbound communications? ................................................................. 347
Q 9.10.1 What are the risks associated with unofficial inbound communications? ......................................................... 347
Q 9.10.2 How can broadcasters avoid risks associated with unofficial inbound communications? .......................................... 348
Q 9.11 What are some of the legal considerations associated with social media that a company should be aware of? .... 349
Q 9.11.1 What specific issues regarding data collection and privacy should broadcasters consider? ......................... 349
Q 9.11.2 What concerns do online endorsements raise for broadcasters? .............................................................. 350
Q 9.11.3 What patent infringement concerns does social media use raise for broadcasters? ........................................ 351
Q 9.11.4 What concerns do online sweepstakes, contests, etc. raise for broadcasters? .................................................. 351

Chapter 10 ADA and Disabilities Access Requirements .................................................. 353
Laura H. Phillips & Laura K. Layton
Q 10.1 What are the main statutes governing the accessibility of communications services and devices for individuals
with disabilities?.................................................................................................................................................. 354
Q 10.2 What does section 225 require? ................................................................................................................. 355
Q 10.2.1 What are telecommunications relay services?......................................................................................... 355
Q 10.2.2 What is IP Relay? ........................................................................................................................................ 355
Q 10.2.3 What is Video Relay Service? .................................................................................................................. 355
Q 10.2.4 What kinds of standards must TRS meet? ................................................................................................. 356
Q 10.3 What are section 255’s disabilities access requirements? .............................................................................. 356
Q 10.4 What is covered by section 255? .................................................................................................................. 357
Q 10.4.1 What are the standards for compliance with section 255 obligations? ...................................................... 357
Q 10.4.2 For purposes of section 255’s disabilities access requirements, what does “accessible” mean? ..................358
Q 10.4.3 For purposes of section 255’s disabilities access requirements, what does “usable” mean?.........................359
Q 10.4.4 What is “readily achievable,” and what factors are considered in applying this standard? ......................359
Q 10.4.5 What are some examples of accessibility features that might be readily achievable? ..............................360
Q 10.4.6 Is inclusion of accessibility features always required? ......360
Q 10.5 What are the potential enforcement risks for noncompliance with section 255? .........................................................360
Q 10.6 What is the Twenty-First Century Communications and Video Accessibility Act of 2010? .................................361
Q 10.7 What services and products are covered under the communications access provisions of the CVAA? .................361
Q 10.8 What are the requirements for CVAA compliance? ................361
Q 10.8.1 What are the standards for CVAA compliance? ..........362
Q 10.8.2 How does the CVAA’s “achievable” standard compare to the “readily achievable” standard under section 255? ...362
Q 10.8.3 What factors are considered in applying this standard? .....363
Q 10.8.4 Are there options for CVAA compliance? ..................363
Q 10.8.5 When must accessibility be considered? ......................364
Q 10.9 What are the enforcement risks for noncompliance with the CVAA? ..........................................................364
Q 10.10 What services and products are covered under the video programming provisions? ...........................................364
Q 10.10.1 What video captioning on Internet programming is required under the CVAA? ..............................................365
Q 10.10.2 What phase-in timetables apply to closed-captioning of Internet video programming? ...............................365
Q 10.10.3 How does the FCC enforce its Internet video captioning rules? .................................................................366
Q 10.11 What are the FCC’s hearing aid compatibility rules? ........366
Q 10.11.1 Who is covered by the hearing aid compatibility rules? .....367
Q 10.11.2 What are the standards for hearing aid compatibility compliance? .............................................................367
Q 10.11.3 What kind of reporting requirements exist for hearing aid compatibility compliance? ...............................367
Q 10.11.4 What are the enforcement risks for hearing aid compatibility noncompliance? ..............................................368
Q 10.12 What provisions of the Rehabilitation Act pertain to communications and disabilities access? .....................370
Q 10.12.1 Who is regulated by Rehabilitation Act section 508?........370
Q 10.12.2 What products are covered by Rehabilitation Act section 508?.................................................................370
Q 10.12.3 What are the standards for compliance with Rehabilitation Act section 508?................................................371
Q 10.13 What are the advantages of disabilities access compliance programs developed to address accessibility requirements?..371

Chapter 11 Privacy and Data Security.....................................................375

Douglas G. Bonner

Q 11.1 What federal agencies protect consumer privacy?.................377
Q 11.1.1 What role does the Federal Trade Commission play in enforcement of consumer privacy protection?...............377
Q 11.1.2 What role does the Federal Communications Commission play in enforcement of consumer privacy protection?..................................378
Q 11.1.3 What role does the Department of Health and Human Services play in enforcing consumer privacy protection?....379
Q 11.2 Do states have their own laws to protect consumer privacy?....380
Q 11.3 How does the Federal Trade Commission protect consumer privacy under section 5 of the FTC Act?.........................380
Q 11.4 What other statutes authorize the Federal Trade Commission to protect consumer privacy?............................................384
Q 11.4.1 How does the Children’s Online Privacy Protection Act authorize the FTC to protect consumer privacy?..........384
Q 11.4.2 How does the Fair Credit Reporting Act authorize the FTC to protect consumer privacy?......................................385
Q 11.4.3 How does the Gramm-Leach-Bliley Act authorize the FTC to protect consumer privacy?..............................................386
Q 11.5 What are some of the specific issues challenging the privacy of consumers?..............................................................387
Q 11.6 What is a data breach?..........................................................387
Q 11.6.1 How can enforcement agencies respond to data breach violations?..........................................................387
Q 11.6.2 What is the Data Security Act of 2015?............................389
Q 11.7 What is online behavioral advertising?.................................389
Q 11.7.1 Are there industry best practices governing online behavioral advertising?..........................................................389
Q 11.8 What is “Do Not Track”?......................................................390
Q 11.9 What privacy concerns are raised by mobile devices and technology?...............................................................391
Q 11.9.1 What privacy concerns are raised by mobile payment systems? .................................................................392
Q 11.9.2 What privacy concerns are raised by location-based services? .................................................................392
Q 11.10 What is cloud computing? .........................................................394
Q 11.10.1 What are the risks associated with cloud computing? ....394
Q 11.11 What role does the Federal Communications Commission play in protecting consumer privacy? ..................395
Q 11.12 How do federal statutes and FCC rules protect customer proprietary network information? .........................396
Q 11.13 Which current laws address telemarketing and unsolicited email? .................................................................397
Q 11.13.1 How does the Telephone Consumer Protection Act regulate telemarketing? ............................................397
Q 11.13.2 How does the Telemarketing and Consumer Fraud and Abuse Prevention Act regulate telemarketing? ......399
Q 11.13.3 How does the CAN-SPAM Act regulate unsolicited email? ....399
Q 11.14 What are the proposed changes to the federal framework for protecting consumer privacy? .........................400
Q 11.15 What federal laws protect health records and information from disclosure? .....................................................401
Q 11.15.1 What role does the FTC play in the protection of health privacy? ............................................................402
Q 11.15.2 Do states also protect healthcare privacy and security? ....402
Q 11.16 What is the purpose of the HIPAA Privacy Rule? .............402
Q 11.16.1 What kinds of health information are protected by the HIPAA Privacy Rule? ............................................402
Q 11.16.2 What uses and disclosures of protected health information are permitted by the HIPAA Privacy Rule? ....403
Q 11.17 What is the purpose of the HITECH Act? .........................403
Q 11.18 What is the Health Breach Notification Rule? ....................404
Q 11.19 What federal laws cover government access to private information? .............................................................404
Q 11.19.1 How does the Electronic Communications Protection Act protect private communications? ...............405
Q 11.19.2 How does the Stored Communications Act protect private communications? ........................................406
Q 11.19.3 What does the Communications Assistance for Law Enforcement Act require of telecommunications providers? .................................................................................407
### Table of Contents

| Q 11.19.4 | How does the USA PATRIOT Act affect the ability of law enforcement to obtain access to private communications under the law? | 408 |
| Q 11.20 | How is the federal government involved in protecting cybersecurity? | 410 |
| Q 11.21 | How does the European Union protect consumer privacy? | 412 |
| Q 11.22 | What other international efforts to protect consumer privacy exist? | 413 |

| Chapter 12 | Bankruptcy | 423 |

**Andrew C. Kassner & Lee G. Petro**

| Q 12.1 | Why do companies typically file for bankruptcy? | 424 |
| Q 12.1.1 | What happens when a bankruptcy petition is filed? | 425 |
| Q 12.2 | Which courts have jurisdiction to handle bankruptcy cases? | 425 |
| Q 12.3 | What special issues are raised by a bankruptcy filing by a telecommunications company? | 426 |
| Q 12.4 | Who has jurisdiction to determine disposition of regulated telecommunications assets in bankruptcy? | 427 |
| Q 12.5 | What steps do broadcasters in bankruptcy need to take with the FCC when entering bankruptcy to maintain compliance with FCC requirements? | 429 |
| Q 12.6 | What steps do wireless licensees in bankruptcy need to take with the FCC when entering bankruptcy? | 430 |
| Q 12.7 | What steps do common carriers need to take with the FCC when entering bankruptcy? | 431 |
| Q 12.7.1 | How do applicants qualify for streamlined processing? | 431 |
| Q 12.7.2 | Can an otherwise-qualifying request for streamlined processing be denied? | 432 |
| Q 12.8 | What steps are required when a common carrier discontinues operation? | 432 |
| Q 12.9 | What state law considerations should a telecommunications company filing for bankruptcy be aware of? | 433 |
| Q 12.10 | What is the “Second Thursday” policy, and how is it relevant to bankruptcy proceedings? | 434 |
| Q 12.11 | Can a bankruptcy court enforce a security interest granted by a licensee to a lender in an FCC license? | 434 |
| Q 12.12 | If the FCC commences an administrative proceeding, does the Bankruptcy Code automatic stay apply, or is the administrative proceeding exempted as a police power? | 437 |
Chapter 13  Foreign Ownership and Participation

Howard M. Liberman

Q 13.1  What is the basis for the limits of foreign ownership of U.S.
communications and telecommunications providers? .................442
Q 13.1.1 Why did Congress include section 310(a) and (b) in
the original Communications Act of 1934? .........................443
Q 13.1.2 Why was broadcasting included in section 310(b)? .........443
Q 13.1.3 Why does section 310(b) remain in the
Communications Act after all these years? .........................444
Q 13.2  To which communications/telecommunications businesses
do the section 310 foreign ownership limits apply? ..................444
Q 13.2.1 Where do the limits not apply? .................................445
Q 13.2.2 Section 310(b) refers only to corporations and “capital
stock.” Do these limits apply only to corporations? .............445
Q 13.3  What is the difference between subsections
310(b)(3) and (b)(4)? .............................................446
Q 13.4  How did section 310(b) change in the mid 1990s? ..........446
Q 13.4.1 How does the WTO BTA affect U.S. limits on foreign
ownership? ..................................................................447
Q 13.4.2 How did the Telecommunications Act of 1996 affect
the limits on foreign ownership? ..................................447
Q 13.5  How and why do U.S. broadcast stations and U.S.
telecommunications providers receive disparate
treatment with regard to application of section
310(b)’s foreign ownership provisions? .................................448
Q 13.5.1 What kind of showing must be made to justify a
ruling from the FCC that foreign ownership
beyond the section 310(b) limit is permitted? ......................450
Q 13.6  How are foreign ownership interests calculated under the
FCC’s interpretations of section 310 over the years? ..............452
Q 13.6.1 How is foreign voting calculated? .........................452
Q 13.6.2 How is the percentage of foreign equity calculated? ....453
Q 13.6.3 When is use of a “multiplier” permitted/not permitted? ....453
Q 13.6.4 Are future interests such as warrants, options, and
convertible debt included in calculating foreign
ownership? ..................................................................454
Q 13.7  How does an entity with widely held ownership, such as a
corporation whose stock is publicly traded, determine
compliance with section 310(b)? ......................................454
Q 13.8  What are some of the common pitfalls in determining
compliance with section 310(b)? ......................................456
Q 13.9 Does the FCC regulate foreign ownership in situations to which sections 310(a) and (b) do not apply? ........................................457
Q 13.9.1 What was the ECO Test? ..........................................................457
Q 13.9.2 What is “Team Telecom review”? ........................................458

Chapter 14  Regulating Customer Relationships ......................................463

Seamus C. Duffy & Michael P. Daly

Q 14.1 How is regulatory authority over wireless service divided between the state and federal governments? ..................464
Q 14.2 What qualifies as “entry” by wireless carriers? .........................465
Q 14.3 What did Congress mean by “rates charged”? ..........................466
   Q 14.3.1 How has the FCC interpreted “rates charged”? ..................467
   Q 14.3.2 How have courts interpreted “rates charged”? ..................467
   Q 14.3.3 Are early termination fees “rates charged”? .....................467
   Q 14.3.4 Are late fees “rates charged”? ........................................468
Q 14.4 What qualifies as “other terms and conditions” of service, which the states can regulate? ..................................468
Q 14.5 What statutes preempt regulation of environmental effects? ......469
Q 14.6 Are personal injury claims challenging the safety of FCC-compliant wireless devices preempted by federal law? ........470
Q 14.7 What role has the FCC played in regulating the wireless customer relationship? ......................................................470
   Q 14.7.1 What are the FCC’s truth-in-billing rules and requirements? 471
   Q 14.7.2 What is “bill shock,” and what measures has the FCC taken to regulate it? ..................................................471
   Q 14.7.3 What is “cramming,” and what steps has the FCC taken to regulate it? ..................................................472
   Q 14.7.4 What types of communications services are within the scope of the FCC’s cramming rules? .........................473
Q 14.8 What federal claims can be asserted against wireless carriers in a court proceeding? ........................................473
Q 14.9 What state law claims can be asserted against a wireless carrier in a court proceeding? ..................................474
   Q 14.9.1 Can courts review matters that agencies are also reviewing? 476
   Q 14.9.2 Can courts resolve matters collectively in class actions? ......477
Ch 15 Copyrights and Communications Content

Q 15.1 What is meant by copyright? .................................
Q 15.1.2 How does copyright protection intersect with communications? .................................
Q 15.2 What is the constitutional basis for copyright law? .................................
Q 15.3 What kind of works are eligible for copyright protection? .................................
Q 15.3.1 What is the Copyright Act’s originality requirement? .................................
Q 15.3.2 What is meant by “fixed in a tangible medium”? .................................
Q 15.4 What works are not protected by copyright? .................................
Q 15.5 What is the public domain? .................................
Q 15.6 Who is the owner of a copyright? .................................
Q 15.6.1 Who owns a copyright where the work has two or more authors? .................................
Q 15.6.2 Who owns a copyright where the work was made for hire? .................................
Q 15.6.3 What is the difference between a derivative work and a compilation? .................................
Q 15.6.4 How is copyright ownership affected where an author contributes to a compilation or derivative work? .................................
Q 15.7 What are exclusive rights? .................................
Q 15.7.1 May a copyright owner sell or transfer those rights? .................................
Q 15.8 What is copyright infringement? .................................
Q 15.8.1 What is direct liability? .................................
Q 15.8.2 What is secondary liability? .................................
Q 15.9 What remedies for infringement are available? .................................
Q 15.10 What is fair use? .................................
Q 15.11 What is innocent infringement? .................................
Q 15.12 Is copyright compatible with the First Amendment? .................................
Q 15.13 What limitations and exceptions exist in copyright law that affect communications content? .................................
Q 15.14 How is a copyright obtained? .................................
Q 15.14.1 Is a copyright owner required to register the work to obtain copyright protection? .................................
Q 15.14.2 Currently, are there any copyright formalities in the United States that must be complied with to obtain copyright protection? .................................
Q 15.15 What is the U.S. Copyright Office? .................................
Q 15.16 How have copyright laws changed in the digital environment? .................................
Q 15.17 What is digital rights management? .................................
## Table of Contents

1. **Q 15.17.1 What are access controls?** ........................................................................................................505
2. **Q 15.17.2 What is the goal of DRM?** ........................................................................................................506
3. **Q 15.18 What is copyright management information?** .........................................................................506
4. **Q 15.19 How do DRM systems determine who is entitled to access a work?** .............................................507
5. **Q 15.19.1 How are DRM systems implemented and managed?** ..............................................................508
6. **Q 15.20 What various media can DRM systems be used to protect?** ..........................................................508
   1. **Q 15.20.1 How are DRM systems used for film?** ........................................................................508
   2. **Q 15.20.2 … for cable television?** ........................................................................................................509

   5. **Q 15.20.5 … in “the cloud”?** ..............................................................................................................510
7. **Q 15.21 What is the opposition to DRM?** ................................................................................................511
8. **Q 15.22 What is the Digital Millennium Copyright Act?** .................................................................511
9. **Q 15.23 How does the DMCA address circumvention technologies?** ......................................................512
   1. **Q 15.23.1 What other anti-circumvention exemptions exist?** ..............................................................513
   2. **Q 15.24 How does the DMCA address violations of CMI?** ..................................................................515
10. **Q 15.25 How does the DMCA address infringement liability of Internet (or online) service providers?** ..........................................................516
   1. **Q 15.25.1 What “safe harbors” does the DMCA establish for online service providers against copyright liability?** ..........................................................................................516
   2. **Q 15.25.2 What provisions does the DMCA make for notice and takedown procedures?** ........517
11. **Q 15.26 What are the remedies for violations of the DMCA?** .................................................................519
   1. **Q 15.26.1 Do fair use considerations come into play?** ........................................................................519
12. **Q 15.27 What is the Berne Convention for the Protection of Literary and Artistic Works?** ..................520
13. **Q 15.28 What are the WIPO Internet Treaties?** ......................................................................................521
   1. **Q 15.28.1 What is the WIPO Copyright Treaty, and how has it been implemented?** ................522
   2. **Q 15.28.2 What is the WIPO Performances and Phonograms Treaty?** ........................................523
14. **Q 15.29 What is the World Trade Organization Agreement on Trade-Related Aspects of Intellectual Property Rights?** ..........................524
15. **Q 15.30 What is the Anti-Counterfeiting Trade Agreement?** ...............................................................524
16. **Q 15.31 What is the Trans-Pacific Partnership?** ..................................................................................525
17. **Q 15.32 What exceptions exist for uses of the copyrighted works by the visually impaired?** ..................525
18. **Q 15.33 What is protection of copyright-related rights?** .......................................................................527
19. **Q 15.34 What is a collective licensing organization?** ...........................................................................527
   1. **Q 15.34.1 What do BMI, ASCAP, and SESAC do?** .......................................................................528
   2. **Q 15.34.2 How do the PROs grant licenses?** ....................................................................................528
Q 15.35 Do other rights organizations operate in the digital communications space? .................................................................528
  Q 15.35.1 Do collective licensing entities operate abroad? ..........529
  Q 15.35.2 What does the future hold for voluntary collective licensing? ........................................................................530
Q 15.36 Do emerging technologies affect copyright law and rights management of communications content? .........................531
Q 15.37 What are examples of new technologies affected by digital rights management? ..........................................................531
Q 15.38 What copyright issues does user-generated content raise? ....534
Q 15.39 What copyright issues are raised by social media and social networking? .................................................................535
Q 15.40 What is streaming media? ...................................................536
Q 15.41 What is cloud computing? .....................................................536
Q 15.42 What public policy trends in copyright and rights management are on the horizon? .....................................................537

Chapter 16 FCC Equipment Rules ........................................................................................................................................547

Dick Edge & Lee G. Petro

Q 16.1 What are radio frequency devices? ..........................................................548
  Q 16.1.1 What are some examples of unintentional radiators? .................548
  Q 16.1.2 ... intentional radiators? .................................................................549
  Q 16.1.3 ... incidental radiators? .................................................................549
Q 16.2 What is the purpose of the FCC equipment authorization program? ..................................................................................549
Q 16.3 What types of equipment require FCC equipment authorization? ......................................................................................549
  Q 16.3.1 What devices are exempted from FCC equipment authorization requirements? ............................................................550
Q 16.4 Does the FCC certify the performance of equipment that complies with its equipment authorization procedures? ..........550
Q 16.5 What types of equipment authorization are granted by the FCC? .........................................................................................550
Q 16.6 What is Verification? ..............................................................................550
  Q 16.6.1 What types of equipment are subject to Verification? .................551
Q 16.7 What is a Declaration of Conformity? ..................................................551
  Q 16.7.1 What types of equipment are subject to a Declaration of Conformity? ...........................................................................551
Q 16.8 What is Certification? ............................................................................551
  Q 16.8.1 What types of equipment are subject to Certification? .................552
## Table of Contents

Q 16.9 May radio frequency devices be sold prior to receipt of FCC equipment authorization? ..........................................................552

Q 16.10 How do the FCC equipment authorization rules apply to equipment manufactured in a foreign country and imported into the United States? ..................................................553

Q 16.11 How do the FCC equipment authorization rules apply to equipment manufactured in the United States and exported to a foreign country? .............................................................553

Q 16.12 Does compliance with FCC equipment authorization requirements automatically qualify equipment under the European authorization scheme? ..............................................554

Q 16.13 What are FCC “measurement procedures”? ........................................554

Q 16.14 Who is a “responsible party” with regard to the FCC equipment authorization rules? ..........................................................555

Q 16.15 Once FCC equipment authorization is granted, may a device be modified without seeking new FCC equipment authorization? .................................................................................................555

Q 16.16 What requirements apply to software defined radios? ................556

Q 16.17 What labeling requirements apply to equipment receiving FCC equipment authorization? ........................................................556

Q 16.18 What records retention requirements apply to FCC equipment authorization? .............................................................................557

Q 16.19 What penalties apply to the distribution of unauthorized equipment? .........................................................................................558

## Chapter 17 Political Broadcasting Rules ...........................................563

*Cindy P. Irani*

Q 17.1 Why are there FCC and FEC rules governing political broadcasting? .................................................................564

Q 17.2 To what types of communications do the FCC’s political broadcasting rules apply? .............................................................565

Q 17.3 Who is a legally qualified candidate? ........................................566

Q 17.4 What constitutes a qualified “use” of broadcast facilities by candidates? .................................................................566

Q 17.4.1 When is an appearance of a candidate on broadcast facilities not considered “use” of broadcast facilities for purposes of the rules? ..................................................................567

Q 17.5 Can a licensee station censor candidates’ communications? ........567

Q 17.6 What is “reasonable access” for political broadcasting? ........567

li
Q 17.6.1 To whom does a broadcast station have to provide reasonable access? ........................................568
Q 17.6.2 Does a cable system have an obligation to provide reasonable access? ........................................568
Q 17.6.3 What are the access obligations with respect to state and local candidates? ........................................568
Q 17.7 What is equal opportunity? .................................................................569
Q 17.7.1 Who is entitled to equal opportunity? ........................................569
Q 17.7.2 When must opposing candidates receive “equal opportunities”? .................................................................569
Q 17.8 What is the lowest unit charge? ..........................................................570
Q 17.8.1 When does the lowest unit charge apply? ........................................570
Q 17.8.2 To whom does the lowest unit charge apply? ..............................570
Q 17.8.3 What rules for charges apply outside the lowest unit charge window? .................................................................570
Q 17.8.4 What are the campaign finance implications of offering to charge less than the lowest unit charge to political candidates? .................................................................571
Q 17.9 What are a broadcaster’s content/record-keeping requirements? .................................................................571
Q 17.10 What is federal candidate certification? ...........................................572
Q 17.10.1 What must the certificate state? .....................................................573
Q 17.10.2 By when must a federal candidate certification be submitted to a station in order for the LUC to be applied? ..................................................................................573
Q 17.10.3 What are the consequences of failure to adhere to the certification requirements? .................................................................573
Q 17.11 Is a licensee responsible for the content of the candidates’ spots? ..............................................................................574
Q 17.12 What requirements regarding the content of broadcasts must a candidate for federal office fulfill in order to receive federal candidate certification (and thus qualify to receive the lowest unit charge)? .................................................................574
Q 17.13 What does the FCC’s sponsorship identification rule require ads to contain? .................................................................574
Q 17.14 What are the requirements for ads sponsored by third parties? ..............................................................................575
Q 17.15 What are the requirements for issue advertisements? ................575
Q 17.15.1 What is a political matter of national importance? ..............576
Q 17.16 What is an electioneering communication? ................................576
Q 17.16.1 What information must electioneering communications disclaimers contain? .................................................................576
Q 17.16.2 What are the specifications for all electioneering communications disclaimers? ...........................................577
Q 17.16.3 What are the specifications for disclaimers for printed electioneering communications? ...........................................577
Q 17.16.4 What are the specifications for disclaimers for radio and television electioneering communications authorized by the candidate? ...........................................578
Q 17.16.5 What are the specifications for disclaimers for radio and television electioneering communications paid for by other persons and not authorized by the candidates? ...........................................579
Q 17.16.6 What are the specifications for disclaimers for electioneering communications paid for by political party committees? ...........................................581
Q 17.16.7 What electioneering communications are exempt from the disclaimer requirements? ...........................................581
Q 17.17 How much can be charged for space in newspapers or magazines in connection with a candidate’s campaign for nomination or election? ...........................................582
Q 17.18 What is a public communication? ...........................................582
Q 17.18.1 What disclaimers are required for public communications? ...........................................582
Q 17.19 What did the Citizens United case hold? ...........................................583
Q 17.20 What areas of political broadcasting are affected by Citizens United? ...........................................583
Q 17.20.1 What are the implications of Citizens United for political broadcasting regarding the content of political advertisements? ...........................................584
Q 17.20.2 … the timing of political advertisements? ...........................................584
Q 17.20.3 … state and local campaign finance laws prohibiting corporate political expenditures? ...........................................585

Chapter 18 U.S. Indian Tribes and the Indian Country ...........................................589

Lee G. Petro
Q 18.1 What are Indian tribes? ...........................................590
Q 18.2 How are Indian tribes organized? ...........................................590
Q 18.3 Can Indian tribes engage in business activities? ...........................................591
Q 18.4 How are Indian tribes different from state, local, or county governments? ...........................................591
Q 18.5 What is Indian country? ...........................................592
Q 18.5.1 What is Indian trust land? ...........................................592
Q 18.6 Do federal laws apply in Indian country? ...........................................592
Q 18.6.1 Do state or local laws apply in Indian country? .......................592
Q 18.6.2 Can an Indian tribe regulate non-Indians in Indian country? ...................................................................................593
Q 18.7 What government agencies are involved in approving leases, rights of way, or other business transactions in Indian country? ........................................................................................................593
Q 18.8 Are there tax advantages to doing business in Indian country? ........................................................................................................593
Q 18.9 How are financing or other commercial transactions different when an Indian tribe is involved? .................................................................594
Q 18.10 What federal telecommunications laws or regulations specifically reference or apply to Indian tribes or Indian country? ........................................................................................................595
Q 18.10.1 Do state telecommunications laws or regulations apply to Indian tribes? ........................................................................................................595
Q 18.10.2 Can Indian tribes regulate telecommunications? .....................595
Q 18.11 What programs or initiatives has the FCC established to assist Indian tribes? ........................................................................................................596
Q 18.11.1 What is the tribal priority for new FM broadcast stations? ..........................................................................................................................596
Q 18.11.2 What is the tribal priority for low power FM radio service? ..........................................................................................................................597
Q 18.11.3 What is the Tribal Mobility Fund? ............................................597
Q 18.11.4 What recent proposals has the FCC made with respect to spectrum use over tribal lands? .................................................................597

Index ......................................................................................................................601
